Winter in Yosemite: Snowy Landscape Under the Full Moon

Yosemite Valley in the winter is a quiet, majestic landscape with a dramatic graphic beauty entirely different from the rest of the year. Photograph the natural landscape from the grand vistas immortalized by Ansel Adams and make new images of intimate landscapes. The full moon will add to gorgeous sunset images.

We will plan two sunrise and sunset shoots taking advantage of the beautiful winter light. During the day we will photograph the Valley floor and along the Merced River. Short

slide presentations in the evening will help you prepare for the next days' shooting.

We will stay at Yosemite Lodge (\$148 / night plus taxes) because of its central location and well provisioned facilities. Participants are invited to make their own lodging reservations at 801-559-4884.

February 26, 3 PM - February 28, 1 PM

Limit 8 participants

Fee \$395
